CONTENTS OF VOLUME 14

Number 1

Editorial 1

Analysis of the Experimental Response of Thin Polymeric Film Surface Resistance Measurement Method 3
G. LEONIDOPOULOS (Greece)

Improving Precision of Rubber Test Methods: Part 3—Tensile Test 13
G. SPETZ (Sweden)

Correlations between the State of Cure of Unsaturated Polyester Coatings and their Behaviour to Water at 60°C 35
T. BENAMEUR, R. GRANGER & J. M. VERGNAUD (France)

Alternate Instrumental Methods of Measuring Scorch and Cure Characteristics . 45
J. S. DICK, H. PAWLOWSKI (USA) & E. SCHEERS (Belgium)

A Simple Method for J–R Curve Determination in ABS Polymers 85
C. R. BERNAL, A. N. CASSANELLI & P. M. FRONTINI (Argentina)

Injection Moulding of Test Specimens According to ISO/DIS 294: A CEN Round Robin Test on Styrenic Polymers 97
L. CASTELLANI (Italy), P. B. KEATING (Belgium), H. MITTNACHT (Germany), P. Y. ROZE (France) & J. R. TRAVIS (UK)

Announcement 111

Number 2

Editorial 113

Structural and Surface Properties of Polyurethane Membranes of Different Porosities 115
M. PULAT & C. SENVAR (Turkey)

Does the Surface Resistance Under Measurement in the Thin Polymeric Film Surface Resistance Measurement Method Vary During the Experimental Response of the System? 121
G. LEONIDOPOULOS (Greece)

A New Universal Fatigue Machine for Plastics and Composites 129
J.-P. TROTIGNON (France)

Fracture Behaviour of Glass Fibre Reinforced Polyamide Mouldings 149
M. AKAY & D. F. O'REGAN (UK)

On the Characterization by Shrinkage Forces of As-spun Poly(ethylene terephthalate) Filaments 163
Ch. D. BECHEV (Bulgaria)

Influence of Molecular Structure on Crystallization Behaviour and Mechanical Properties of Polypropylene 173
M. GAHLEITNER, K. BERNREITNER, W. NEIßL, C. PAULIK & E. RATAJSKI (Austria)

ESCR Performance of Blow Molded Polyethylene Bottles as Measured by the Internal Pressure Test 189
J. J. STREBEL (USA)

Short Communication

New Instrument for Rapid Testing of Compression Set 203
G. SPETZ (Sweden)

Number 3

Editorial 209

A Review of Oxygen Uptake Techniques for Measuring Polyolefin Oxidation . . 211
J. SCHEIRS, S. W. BIGGER (Australia) & N. C. BILLINGHAM (UK)

Structure–Property Relationships in Polyester Fibres 243
M. M. SHAHIN (Egypt)

Problems in Determining Hardness of Rigid Rubbers 253
A. M. KUCHERSKII & B. M. KAPOROVSKII (Russia)

Effect of Local Atmospheric Conditions in Bahrain on the Mechanical Properties of GRP 263
N. M. S. AL-BASTAKI & H. M. N. AL-MADANI (Bahrain)

NMR Studies of PVC Molecular Mobility 273
M. I. B. TAVARES & E. E. C. MONTEIRO (Brazil)

Copolymers Based on Styrene and Divinylbenzene Synthesized in the Presence of DEHPA II Evaluation 279
F. M. B. COUTINHO, C. C. R. BARBOSA, S. M. REZENDE & J. W. D. CUNHA (Brazil)

Vapor Phase Addition Method to Investigate the Monomer Transport at the Latex Particle Interface 289
J.-I. KIM, J. W. VANDERHOFF & A. KEIN (USA)

Number 4

Editorial 307

Non-Destructive Characterization of Surface Coating on Metal by DRIFT Spectroscopy 309
G. C. PANDEY & A. KUMAR (India)

A New Method of Calculation of Polymer Media Relaxation Functions from Rheological Experimental Data 315
Y. G. YANOVSKY & Y. A. BASISTOV (Russia)

Characterization of EPDM/Atactic Polypropylene Blends 329
N. M. DA SILVA, M. I. P. FERREIRA & M. I. B. TAVARES (Brazil)

Comparative Study of Methyl Methacrylate Cure by Microwave Radiation Versus Thermal Energy 343
J. JACOB, L. H. L. CHIA & F. Y. C. BOEY (Singapore)

Study of Hardness Drift: A Method for Investigating the Viscous Behaviour of Cured Rubber 355
F. CASA, M. FENZI & L. TONTODONATI (Italy)

A Study of Polypropylene Peroxide Promoted Degradation 369
M. C. G. ROCHA, F. M. B. COUTINHO (Brazil) & S. T. BALKE (Canada)

Development of New Oven Test Instrument 381
K. MITSUHASHI, A. SHINOHARA & S. SUGA (Japan)

Number 5

Editorial 401

Predictive Techniques and Models for Durability Tests 403
R. P. BROWN (UK)

Hydraulic Permeation of NaCl Solution Through Sulfonated Polysulfone–Polyvinyl Alcohol/Polysulfone Composite Reverse Osmosis Membrane 415
M.-H. YANG (Republic of China)

Polymer Crystallinity and its Effect on the Non-Linear Bending Creep Rate for a Polyphenylene Sulphide Thermoplastic Composite 425
F. Y. C. BOEY, T. H. LEE & K. A. KHOR (Singapore)

Investigation of Nylon-6 Fibre Structure Interferometrically 439
A. H. ORABY & M. A. MABROUK (Egypt)

Application of the Instrumented Impact Test to the Toughness Characterization of High Impact Thermoplastics 453
S. SEIDLER & W. GRELLMANN (Germany)

Humidity and Autoclave Pressure Effect on the Interfacial Shear Strength of a Microwave Cured Epoxy Glass Fibre Composite 471
F. Y. C. BOEY (Singapore)

Process of Drying a Polymeric Paint by Diffusion–Evaporation and Shrinkage Determination of the Concentration-Dependent Diffusivity 479
L. ION & J. M. VERGNAUD (France)

Quantitative Application of DRIFT Spectroscopy: Determination of Composition of Special Acrylic Fibers 489
G. C. PANDEY, K. V. RAO & A. KUMAR (India)

Announcement 495
